

Ranjitha D L

Analyst/Software Engineer

Base Location: Bangalore

Email ID: ranjitha.d-l@capgemini.com

Mobile No: +91 9731326904

Grade: A4

Strengths

Mendix Rapid Developer

- **Functional:** Working on web Applications development using Mendix, UI developed by using Mendix software to add/delete/edit and the functionality to trace the location of by using Nanoflows and developed the custom logic by using microflows in mendix ,adding validation to validate the input data using regular expressions and used the Domain Model functionality to manage the data of the application in database.
- Web Application development by using Mendix Software
- **Technical:** As a mendix rapid developer, I have experience in creating web applications using technologies like Mendix and java.
- Proficient in creating **Mendix** Applications.

Achievement

Food Application 1

Food order application created for to order food items by customers from the restaurant for the better management of the restaurant to control the floating of the customer's Order. In this application I have added functionality to track the customer location for to deliver the food items by using Nanoflows in the mendix.

Food Application2

Kitchen conglomerate has come to need a more efficient way of checking if they have all the ingredients necessary for recipes, they can cook at their homeless shelter kitchens. Ideally to create an application that allows Restaurant to track recipes and their ingredients. Once a particular recipe is chosen, they can compare it to the ingredients that are in stock at a certain location.

- **Completed Mendix Rapid Development Certification.**
